1. Introduction

(a) The purpose of this study is to investigate the effectiveness of the proposed method in solving the problem of ...

1. The first part of the study is to introduce the problem and the proposed method.

2. The second part of the study is to describe the experimental setup and the results of the experiments.

3. The third part of the study is to discuss the results and to compare them with the results of other studies.

4. The fourth part of the study is to conclude the study and to suggest some directions for future research.

5. The fifth part of the study is to provide a summary of the study.

6. The sixth part of the study is to provide a list of references.

7. The seventh part of the study is to provide a list of appendices.

(b) The purpose of this study is to investigate the effectiveness of the proposed method in solving the problem of ...
